SCRATCH MY BELLY

A story of #RESCUELOVE

1,000 and counting...

Scratch My Belly is a non-profit, all breed dog rescue, saving animals from high kill shelters in Southern California and the streets of Mexico.

SMB was founded in 2013 and since then we have been working individually, and with other rescue groups, to help rehabilitate and rehome animals in need. The average cost to rehabilitate a dog for adoption is over \$580 per dog.

Our goals are very simple:

- under foster care, rehabilitate and care for our SMB recruits
- raise awareness for the animals in need in the shelter system
- provide education to our community about homeless pets

HOW YOU CAN DONATE

- Financial Donations always welcome!
- Used towels & blankets, dog crates, dog beds
- Leashes, Collars, toys, pee pads
- Dog Food
